

SPECIFICATION SHEET

Glove Style: GCOT

Description: Machine knitted 7guage (String Knit or Crochet) cotton blend ambidextrous (reversible) seamless glove. Elasticised composite knitted wrist, Colour coded and over-locked cuff.

(± 37.50 grams per pair / 450 grams per dozen)

Being seamless knit with elastic cuff and reversible (wear on either hand) these gloves are more comfortable to the wearer. Knit construction stretches for excellent fit while allowing air to circulate to keep hands dry and comfortable. These gloves are ideal as light industrial, general work and liner gloves.

Series:
GCOT Composite knitted wrist

Sizes Available:

SIZE AS PER EN 420	SIZE	CUFF COLOUR
9*	Medium > Large	Yellow
*Indicates fit for special purpose Glove measured when laid flat and relaxed		

Cleaning & Maintenance:

Gloves should not be left in contaminated condition if re-use is intended especially if potential hazards exist. Before removal from the hands excess contaminant should first be removed however, should this not be possible, it is advisable to ease left and right hand gloves off using the gloved hand & remove the gloves without the contaminant contacting the bare hands. The gloves may then be de-

contaminated with mild detergent solution, then rinsed with clean water and dried ideally with some air movement. All gloves should be thoroughly inspected before use to ensure no damage is present.

Storage:
Store the gloves the original packaging in a cool dry place and out of direct sunlight.

Packaging:
The standard packaging for the gloves is as follows. The gloves are not packed in individual bags "inbg". The gloves are packed in bundles in a polybag "plbg". The "plbg" glove bundles are placed in cardboard cartons "ctn" suitable for transportation and storage.

Obsolescence:
Stored correctly, the gloves physical properties will not change for up to two years.

General:
None of the materials or processes used in the manufacture of these products is known to be harmful to the wearer. The manufacturer has examined under the system for ensuring quality of production by means of monitoring and inspection. The gloves are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment. The information contained herein is intended to assist the wearer in the selection of personal protective equipment. Actual conditions of use cannot be directly simulated in a test environment so it is therefore the responsibility of the end user and not the manufacturer or supplier to determine the gloves suitability for the intended use.

GCOT

COTTON CROUCHED 7gg

SIMPLE DESIGN

NO MARKING ON THE GLOVES

MINIMAL RISK

Superficial mechanical action
Handling of hot components that do not exceed 50 °C
Minor impacts and vibrations that will not affect the body
Atmospheric agents not of extreme nature (Cold)

Tested in accordance with the European directive for PPE (89/686/EEC) for simple design, and is compliant with EN 420.
