

SPECIFICATION SHEET

Glove Style: SAFOOD +

Description: Seamless knitted gloves constructed of a new revolutionary blended yarn combining ultra hi density polyethylene (HDPE) fibre DYNEEMA® with ultra light stainless steel yarns. Superior protection from cuts and abrasion

Series and Sizes Available:

SIZE AS PER EN 420	SIZE AS SOLD	LENGTH PER SIZE	CUFF COLOUR PER SIZE
7	Small	270mm	Yellow
8	Medium	280mm	Pink
9	Large	290mm	Green
10	X Large	300mm	Brown
*Indicates fit for special purpose Glove measured when laid flat and relaxed			

Cleaning & Maintenance:

Both new and used gloves should be thoroughly inspected before being worn to ensure no damage is present. Gloves should not be left in contaminated condition if reuse is intended in which case gloves should be cleaned as far as possible (SEE WASHING INSTRUCTIONS).

Storage:

Store the gloves in a cool dry place and out of direct sunlight and UV light.

Packaging:

The standard packaging for the gloves are as follows. The gloves are packed in individual bags. The gloves are placed in cardboard cartons "ctn" suitable for transportation and storage.

Obsolescence:

When stored as recommended will not suffer change in mechanical properties for up to three years from the date of manufacture.

General:

The quality system used to manufacture the gloves is in compliance with ISO 9002. The manufacturer was examined under the system for ensuring EC Quality of Production by means of monitoring (Council Directive 89/686/EEC ARTICLE 11B. The models referred to are designed to accommodate the basic safety requirements and standards laid down in EU Council Directive for Personal Protective Equipment Annex II and EN 420, EN 388 respectively. None of the materials or processes used in the manufacture of these products is known to be harmful to the wearer.

PLEASE NOTE!:

The information contained herein is intended to assist the wearer in the selection of personal protective equipment. The Physical test results of the laboratory should also help in glove selection however, it should be understood that the actual conditions of use couldn't be directly simulated. It is therefore the responsibility of the end user and not the manufacturer to determine the gloves suitability for the intended use.

WASHING INSTRUCTIONS
